

Safety Training & Inductions Confined Space Standby & Training

SAFETY TRAINING & INDUCTIONS

Safety Training & Inductions Pty Ltd is able to offer both a professional Confined Space Standby service or provide accredited Confined Space Training on site tailored to your particular needs or as a Nationally Accredited VTAB course.

Safety Training & Inductions will provide all of the legally required safety equipment such as gas detectors and harnesses and tripods for safe entry and egress from any building site Confined Space and provide help in preparing the jobs SWMS to the highest standard.

We are able to provide either Confined Space awareness training for smaller jobs that don't warrant full VTAB accredited training course but yet cover your legal OHS requirements to ensure Confined Space Safety on the site. Or we can provide the Nationally recognised Confined Space Course, delivered on site or off site depending on site facilities. This course can be tailored from a basic course covering :

- Entry Permits
- Atmospheric testing
- Risk assessments
- Legislation OHS Div 9
- AS2865

The next level course teaches Breathing Apparatus and more about the issuing of Entry Permits this course usually takes 3 days with a big emphasis on the practical components.

This is the National Modules achieved with the basic course.

BCCCM1001C - Follow OHS Policies and Procedures

BCCCM2009B - Work in Confined Spaces

- Enter and work in the confined space;
- Work within a permit System;
- Entry permits;
- Confined entry in controlled environments;
- Atmospheric hazards and Testing ;
- Communication and tools;
- Fire suppression;
- Exit the confined space;
- Clean up.

WHAT WE PROVIDE AS COMPETENT CONFINED SPACE STANDBY !!!!

Safety Training & Inductions will provide a very cost effective and professional way to manage all contractors entering confined Spaces on building sites.

We will provide all necessary safety equipment and expertise and help develop a workable Safe Work Method Statement SWMS that will be followed at all times.

Our Confined Space Standby Trainers are current Industry workers and know what they are talking about!

We have successfully worked with Bovis Lendlease on many jobs including Rouse Hill Civic Center and Top Ryde shopping Center.
