

National Mining Supervisor Training (S1 S2 S3)

TRAINING EXPECTATIONS

Safety Training & Inductions Pty Ltd in partnership with Bannister Technical an RTO have developed a S1 S2 S3 training program that has been specifically designed for Mining participants and tailored for supervisors employed in within the Mining Industry. This course is focused for participants who are required to undertake the role of/and perform the duties and requirements of a Mining Supervisor and Mine Safety & Health Representative or Contractor Supervisor.

This nationally recognised training program provides participants with 3 units of competency required to achieve a Statement of Attainment:-

The Modules include:

- **RIIRIS301A (S1) Apply Risk Management Processes**
 - Identify hazards
 - Assess and identify unacceptable risk
 - Identify and recommend treatments
 - Contribute to the implementation of treatments
 - Review safety system documentation
- **RIIOHS301A (S2) Conduct Safety and Health Investigations**
 - Determining the investigation objectives
 - Gathering information
 - Evaluating information
 - Identifying courses of action
 - Preparing and presenting investigation reports
- **RIICOM301A (S3) Communicate Information**
 - Communicating information orally
 - Communicating information in writing
 - Achieving meeting outcomes
 - Making a presentation
 - Participating in negotiations

S1 S2 S3 is offered by Safety Training & Inductions Pty Ltd from both RI130209 Certificate IV and III in Underground Coal Operations packages.
